PERSONAL PROJECTS

Simon Says Browser Game, [Project Link](#)

01/2021

Skills - HTML, CSS, Javascript, JQuery, Github Pages

- A simple front-end edifice built upon HTML & raw CSS. Designed in the fashion of a classic Simon Says game.
- Using JQuery & Javascript for the in-game behaviour. Responds to an initial keyboard stroke and subsequent mouse clicks on the correct pattern that the game creates.

Digital Drum Kit, [Project Link](#)

01/2021

Skills - HTML, CSS, Javascript,

- A fun web-browser based digital drum kit.
- Built using HTML & raw CSS with image assets. Javascript was used for the in-game behaviour and returning sounds to the user upon keypresses or mouse clicks of the desired button/kit piece.

Travel Company Front-end Site, [Project Link](#)

01/2021

Skills - HTML, CSS, Flexbox

- A modern looking, responsive mockup website for a Travel Company.
- Built during online coding bootcamp to strengthen CSS knowledge and maintain a responsive site via flexbox axis and media queries.
